

Replacing Plastic with Paper – At Scale

Cutlery | Cups | Bowls | Trays | Plates

BRCGS Certified

Health; for human and earth...

Engineered Paper Alternatives to Single-Use Plastic

VAV Paper develops and manufactures high-performance paper tableware designed to replace single-use plastic in retail and foodservice environments.

Our products combine structural strength, liquid resistance, and material safety — enabling reliable use across a wide range of applications, from ready meals to fresh food packaging.

By focusing on material engineering and scalable production, we provide practical and commercially viable paper-based alternatives to plastic.

Our Story

Who We Are

Established in 2022 as a registered trademark under **VAV Kağıt Ambalaj Sanayi ve Ticaret A.Ş.**, **VavPaper** is a manufacturer that produces a complete range of single - use tableware and packaging products entirely in - house. From raw material procurement and R&D initiatives to production stages, customs management, and marketing, all operational processes are managed in an integrated manner by our expert team.

With our **“Turns plastic into paper”** vision at the core of our corporate identity, we are leading the transformation in the industry. Strategically located in Tekirdağ, just 100 km from the European Union border, our production facility enhances our competitiveness in the global market while enabling us to provide flawless, professional service to both our customers and the sector.

What We Do?

In line with our motto, **“Turns plastic into paper,”** we provide a strong, eco-friendly alternative to plastic by manufacturing products made entirely of paper. Driven by our deep commitment to sustainability, we exclusively use certified paper in our production lines to ensure the protection of global forest resources.

With an uncompromising approach that prioritizes human health, we manufacture in strict accordance with our BRCGS Certification and never use “Recycled Paper” in any of our products. At **VAVPaper**, our production philosophy is crystal clear:

Our products are recyclable, but they are not manufactured from recycled materials.

By maintaining the highest possible standards of hygiene and quality, we produce our entire product line completely in-house. Our extensive range includes single-use:

Paper cutlery (forks, spoons, and knives) Cups, plates, and bowls Ice cream and dessert spoons Raw meat trays Serving plates and containers

Simultaneously, we are proud to offer innovative and reliable solutions tailored to our **customers’ specific product needs** and their demands for plastic-to-paper conversion.

Our Story

As **VAV Group**, our deep-rooted commercial journey began in 1998 with our operations in the textile and glassware sectors. By blending our comprehensive production, import, and export experience gained over the years with a vision for a sustainable future, we established **VAV Kağıt Ambalaj Sanayi ve Ticaret A.Ş. in 2022** and registered our innovative face in the industry, the **"VAVPaper"** brand.

With the goal of reducing plastic use and manufacturing eco-friendly alternatives, we launched our first paper cutlery production line in Tekirdağ in early 2022. Our strategic location, just **100 kilometers away from the European Union border**, has allowed us to carry our operational strength to the international arena. Thanks to this robust logistical infrastructure, we have direct access to the highest quality raw materials; and we offer our products - manufactured exclusively with our own quality standards - to all our business partners, primarily in European countries, with the advantages of optimum shipping costs and fast delivery.

As of today, with a monthly production capacity of **50 million pieces**, we export to **12 different countries**, mainly in the European Union and the Middle East. While transforming our motto **"Turns plastic into paper"** into a global standard, we stand out with our ability to provide flexible, fast, and professional solutions for our customers' customized product, packaging, and delivery requests. To this end, we have provided **360-degree solutions** for supermarkets and international food companies by converting conventionally plastic products into paper alternatives. As the **VAVPaper** family, we remain committed to being your most reliable and innovative solution partner for your paper tableware and packaging needs, offering rapid solutions for the products you wish to transform from plastic into paper.
